Residents are entitled to a leave of absence and reinstatement upon return from leave of absence for military service (including Reserve and National Guard duty), as provided for by applicable state and federal laws. Resident/fellow must present military orders as early as possible, but no later than 30 days upon return from military service. Military pay will be supplemented by Palmetto Health to the extent that the resident will not suffer income loss due to military service. This applies only to those periods of military duty where the resident is receiving military pay (as opposed to periods of duty where the resident/fellow is serving “for points only”, without pay) and is limited to a time period not to exceed 15 days per annum. The limit will be extended by 30 days (total of 45 days per annum) if subject to involuntary call-up.

Where leave is paid and found not to be supported, the compensation will be taken out of his/her next paycheck(s).

At the discretion of the resident/fellow’s Program Director and consistent with ACGME and RRC/CODA requirements, if time away from the resident/fellow’s educational program exceeds the maximum allowed by program requirements, the resident/fellow’s training may be extended as additional months or fractions thereof to meet these requirements. Additional training may also be required by specialty/sub-specialty boards for eligibility for certifying board exams (board certification requirements are provided by each program director).

NOTE: Residents/fellows should follow up with Payroll for further guidance.
